### EQUIPMENT & MACHINERY SALES

Based in Melbourne, operating throughout Australia and the Pacific Islands, we are experienced suppliers of both new, refurbished, and used food meat processing machinery equipment.

### PRODUCTION SOLUTIONS

With both experience in sales and maintenance, our on-site knowledge allows us to provide excellent and appropriate recommendations to our customers.

### MAINTENANCE

Our team of qualified technicians are experienced and appropriate to provide both on and off-site maintenance, service and training.

### SPARE PARTS

Our stockroom in Melbourne holds important spare parts for all of the machinery that we supply and service, which can be installed by our qualified technicians or delivered for your on-site stock.

# ABOUT US

## INSIGHT INTO OUR BUSINESS

The team at Focus Trading work with our international partners and customers to supply both high quality and cost-effective food processing equipment and machinery. We provide new and refurbished machines, equipment, service, maintenance and spare parts for scansteel foodtech, koncept tech, Wolfking, Fessmann, Mado and many more industry leading manufacturers and suppliers. We have offices based in Melbourne and Sydney, providing service throughout Australia and the Pacific Islands.

# TROLLEY PRESS

## SMOKEHOUSE TECHNOLOGY

Rely on us to create customized trolleys for your oven. We specialize in creating customized equipment for industrial food processing, and trolleys, which are also fundamental elements to make the entire process efficient.

All trolleys are made of AISI 304 stainless steel and can be equipped with wheels or inserted in the oven using your handling system. In this second case, thanks to the advancement function of our ovens, trolley insertion is both facilitated and fast.

The advantages of this system, to increase production efficiency:

- High speed loading and unloading of trolleys
- Rugged design, created to last
- Space saving in the production department
- More cleanliness in the workshop
- Customized sizing of moulds
- High speed pressurized or manual closure of moulds

# MEAT BINS

Portable, rechargeable battery

---

10,000 applications per charge

# SERVICES

## OUR FOCUS ON SOLUTIONS

### EQUIPMENT & MACHINERY SALES

Based in Melbourne, operating throughout Australia and the Pacific Islands, we are experienced suppliers of both new, refurbished, and used food meat processing machinery equipment.

### PRODUCTION SOLUTIONS

With both experience in sales and maintenance, our on-site knowledge allows us to provide excellent and appropriate recommendations to our customers.

### MAINTENANCE

Our team of qualified technicians are experienced and appropriate to provide both on and off-site maintenance, service and training.

### SPARE PARTS

Our stockroom in Melbourne holds important spare parts for all of the machinery that we supply and service, which can be installed by our qualified technicians or delivered for your on-site stock.

### CHEESE PRODUCTION

Cheese production in Australia uses a third of Australian produced milk, with hundreds of thousands of tonnes being exported annually. Focus Trading provides many options for developing and processing cheese for our clients, to have optimal efficiency and with great quality.

### MEAT & SMALLGOODS PRODUCTION

Your goals are our goals. We value customer service and the trusted relationships we have. Many of our customers in the meat, smallgoods, and poultry industry are independent and family-run, just like us, so we understand how necessary an efficient and reliable production is.

### PET FOOD PRODUCTION

Our global partner scansteel foodtech is very experienced in developing machinery for use in both dry and wet pet food production lines. Their range of machinery is highly competent within the meat and bone raw material preparation segment

### PLANT BASED FOOD PRODUCTION

We have experience developing industrial production lines where efficiency is essential. Between our partners, we supply all the essential and supplementary equipment and machinery for productions of all scale.
